PROFESSIONAL SUMMARY

Detail-oriented and results-driven IT professional with a Bachelor of Science in Computer Science and practical experience in software development, system support, and database management. Skilled in troubleshooting technical issues, supporting web and mobile applications, and maintaining reliable IT systems. Proficient in working with RESTful APIs, databases, and system workflows to enhance operational efficiency and user experience. Passionate about leveraging technology to support organizational processes, improve data management, and deliver dependable IT support services.

EDUCATION

Bachelor of Science in Computer Science

Dedan Kimathi University of Technology

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python
- **Web Technologies:** React.js, HTML, CSS
- **Database Management:** SQL, PostgreSQL, MySQL, Django
- **Version Control:** Git, GitHub
- **Systems:** Windows, Linux, Unix/Linux Administration, System Administration

KEY ACHIEVEMENTS

- Developed a fully functional Image Repository for Mutall Data Company Limited, improving data retrieval efficiency by 40%.
- Designed and implemented an Airbnb-style website for Domaine Jacaranda de Banaudon, leading to an increase in online engagement and customer inquiries.
- Successfully contributed to the automation of data collection and survey analysis at FAO & ChildFund Kenya, enhancing data accuracy and streamlining reporting processes.
- Built and deployed a food delivery system for university students, integrating secure authentication, real-time tracking, and an optimized user interface.
- Led the development and deployment of multiple full-stack projects, demonstrating strong project management and problem-solving abilities.

WORK EXPERIENCE

Full-Stack Developer, Domaine Jacaranda de Banaudon

September 2024 – February 2025

- Designed and developed an interactive Airbnb-style website using PHP, HTML, CSS, and JavaScript.
- Integrated admin and client communication features for seamless booking management.
- Conducted end-to-end testing and deployment, ensuring an intuitive and secure platform.
- Developed a mobile app module using Java for an enhanced customer experience.

Freelance Project, Health Information System (MERN Stack)

March 2024 – September 2024

- Backend: Node.js + Express, MongoDB
- Frontend: ReactJS with TypeScript
- Features: Patient registration, treatment history, analytics dashboard, secure user access

Full-Stack Developer & IT Support Intern, Mutall Data Company Limited,

January 2022 – January 2024

- Designed and developed an image repository and database system, reducing search and retrieval times by 40%.
- Led front-end and back-end development using TypeScript, HTML, CSS, and SQL.
- Conducted manual data collection and ensured data integrity through validation and cleaning techniques.
- Compiled monthly and quarterly reports, providing actionable insights for business decision making.
- Diagnosed and resolved hardware, software, and network issues for end-users.
- Configured, maintained, and secured IT infrastructure on Unix/Linux servers, ensuring system availability above SLA levels.

Enumerator – FAO & ChildFund Kenya

2024 (Various Short-Term Contracts)

- Conducted household surveys and field interviews using DHIS2 and Kobo platforms.
- Led focus group discussions and key informant interviews with stakeholders in ICT and education.
- Provided technical mentorship on data collection tools and methodologies.
- Compiled detailed survey reports, influencing policy and program decisions.

SOFT SKILLS

- Excellent communication and teamwork skills
- Strong problem-solving and analytical thinking
- Effective time management and ability to meet deadlines
- Adaptability and willingness to learn new technologies
